The Spa at Antara Palace Launches Luxurious Valmont Treatments

The luxury boutique hotel is the first in Cyprus to offer the renowned Swiss skin care brand's legendary anti-ageing treatments.

POLIS CHRYSOCHOUS, CYPRUS - June 2014- The Spa at Antara Palace is proud to announce the launch of the luxurious Valmont face, body and hair treatments for the first time in Cyprus. Valmont products are also available in the spa's boutique. The Swiss brand has 25 years of excellence in helping its customers combat the visible signs of ageing and, therefore, it is not surprising that it has a following of celebrities as well. The philosophy of The Spa at Antara Palace is that beauty comes from within and the highly effective Valmont treatments will let every client's inner beauty shine through.

Facial treatments are targeted towards purification (*Purity of the Alps*), deep hydration (*Nature Intense Hydration Ritual*), brightening (*Radiance Face Treatment*) and rejuvenation (*Vitality of the Glaciers Collagen Treatment, Peaks of Firmness*) of the skin, in a variety of durations. The *AWF Eye Lift Treatment* is a perfect add on to any facial that eliminates dark circles, puffiness and wrinkles thanks to a special collagen eye mask. Body treatments focus on exfoliation (*Purity of Bisses*) and slimming (*Peaks of Slimness*). The *Hair Repair Scalp Massage* nourishes the hair and the scalp and smoothes the hair fibres.

Of this new collaboration a spokesperson of Antara Palace said: "We believe that the newly available Valmont treatments will be warmly welcomed by our guests, who seek results-oriented anti-ageing treatments and skincare routine at home. We are honoured to be the first spa in Cyprus to collaborate with the Valmont brand, since it is the skin care brand of choice in several prestigious spas from New York to Paris."
